Fresh Air Series Obstacle Course Race

Head to Head Results

The format for the 800m obstacle course race included a time trial followed by head-to-head heats each with a pursuit start.

The time trial determined the times for each athlete to finish. These times are used in determining points earned in the Fresh Air Series races. Each point is a chance in the draw for prizes at season end.

The times were also used to determine which racers would go head-to-head, and the relative times determined how many seconds behind the slower racer the faster racer would start.

The following are the results of the heats:

Heat	Racer 1	Time Delay	Racer 2	Winner
1	Werner Schwar	2.5 s	Evan Palmer-Charrette	Werner
